WATCH YOUR STEP!

"The steps of a good man are ordered by the LORD: and he delighteth in his way." Psa. 37:23. "Watch your step!" usually means to be careful where you

decide to put your own feet. I have come to look at that statement in a different way. For the past month I have been watching where the **Lord** has been putting our feet! It seems like we have been walking through a Covid minefield! In September and October, we were around a couple of people who had been exposed to someone else who had the virus. Things changed this month! A month ago we arrived in South Carolina for the first of four meetings in the state. We arrived a day early (*on Friday*) and the pastor and his assistant were present to help us unload the equipment into the church and set up the trailer. The next morning, the pastor contacted us to let us know that he had come down with the virus overnight. There were already several in the church who either had the virus or were quarantined due to exposure, so the pastor opted to cancel the meetings. On Monday, we moved on to the next meeting location. We began that meeting on schedule. However, on Tuesday of that week we found out that the girl who had helped Cheryl with her

kid's class on Sunday night had tested positive for the virus. Cheryl and I went to be tested and, praise the Lord, the results were negative. At the next church we had lunch with a church couple at a restaurant. They had just been tested for the virus. On Thursday the wife called Cheryl to let her know that she had tested positive. Cheryl and I have been tested again since then and, thankfully, the results again were negative. In the midst of these concerns, we have seen the clear leading of the Lord in the meetings. We have been able to help several smaller churches and have seen souls saved each week. Praise the Lord! Please pray that the Lord will continue to keep us safe and healthy as we finish up our meetings for the year.

WE HAVE MOVED!

We have replaced our old trailer with a new one. We shopped on line from Michigan and found a rig at a Camping World in New Jersey. We purchased the trailer from them, and they shipped it to a Camping World in South Carolina where we picked it up. We are still figuring out where to store everything, and are making some modifications. There is some winterizing work that has to be done as well, but we are thankful for our new home. As most of you know, we do not have a house or property anywhere in the U.S.
